Making people happy with coffee since 1936

La Genovese® CAFFÈ

Coffee from our perspective

Since 1936, one family and a clear idea of coffee. Born in Albenga and now led by the third generation, La Genovese is an independent roastery blending craftsmanship and innovation to honor each origin. We source with trusted partners, roast to enhance their identity, and refine every detail. Bean to cup. Growth without compromise is our choice: we export over 50% of our production to 26 countries, delivering a distinctive, consistent Italian espresso. Quality for us is tangible: full traceability, certifications (Organic, Rainforest Alliance, Certified Italian Espresso), and continuous training through LaG Academy to support baristas, distributors and partners.
This is La Genovese: respect for the product, attention to detail, and long-term relationships. Because a great coffee is the outcome of many skills and of a promise kept, every day.

Our vision

We look to the future with the strength of our heritage. Our mission is to spread authentic Italian Espresso worldwide, blending artisanal tradition, responsible innovation and tangible sustainability. For us, growth means expanding horizons without ever losing our roots: every coffee is roasted in Albenga, yet speaks the universal language of quality.

Our value

Our values are not just statements
— they guide the way we work every single day.
They shape each choice we make and ensure that every cup of coffee tells a story of authenticity, dedication and a vision for the future.

Sustainability
balancing environment, people and business through responsible practices.

Innovation
embracing change as an opportunity to create value and remain relevant.

Collaboration
people are at the centre, we grow together with those who share our vision.

Integrity
we act with transparency and respect, building long-lasting trust with clients and partners.

Passion
coffee is our daily energy, driving us to improve and innovate.

Excellence
we select only the finest beans and refine every step, from harvest to cup.

Beyond coffee

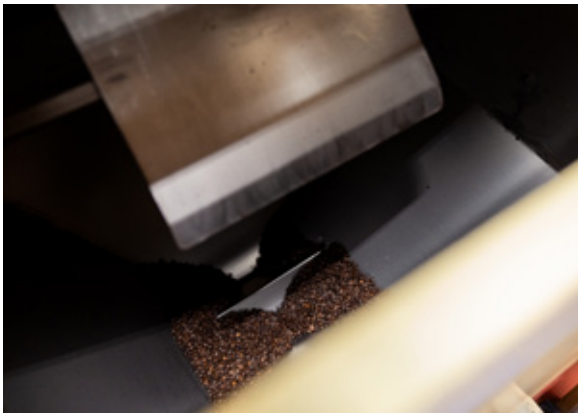
Beyond crafting excellent blends,
we strive to be a reliable and innovative partner.
We look ahead, aware that lasting results are built on authentic and sustainable relationships.

Our commitment to people, partners and planet
For us, coffee is the starting point, not the destination. In recent years, we have chosen to go beyond production, building a business model that combines environmental sustainability, social responsibility and shared growth.

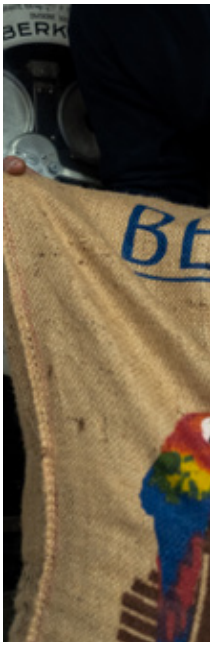
Real sustainability
Since 2013 we have produced certified organic coffee and, since 2017, we have been a Rainforest Alliance partner. Every choice is guided by respect for the environment and for the communities that grow our coffee.

Valuable relationships
We invest in training and customer support through LaG Academy, consultancy programs and digital tools. We don't just sell coffee, we build growth strategies together.

Internal wellbeing
We foster a collaborative and inclusive workplace, because quality begins with motivated and respected people.



Certified Excellence



Quality, sustainable and organic agriculture: certifications are fundamental and attest to our seriousness. For us, quality is a concrete concept.

UNI EN ISO 9001:
2015 Quality Certification
Since 2004, the certified Quality System has been set up for the complete monitoring of all the Company's activities, from the purchase of raw materials to the processing of raw coffee, from Marketing to the commercial.

Organic Product Certification
Since 2013 we have produced certified organic coffee, grown without pesticides or chemical fertilizers. A choice that protects the environment, farming communities and consumers, delivering a healthier, sustainable espresso.

Certificazione Rainforest Alliance
We have embraced the Rainforest Alliance's mission: to create a world where sustainable agriculture is the norm. Sustainable agriculture helps farmers, workers and their families meet their ambitions, and helps save the world's resources now and in the future.
The certification for the production of coffee was obtained in 2017 for the UTZ brand which then joined the Rainforest Alliance.

Certification of Espresso Italiano
In 2008 the three main blends of the Company (Gran Miscela Anniversario, Royal and Oro) obtained the important product certification for Espresso Italiano.

LA GENOVESE
ETIOPIA

HACCP – Certified Safety
We have implemented an HACCP plan that identifies critical points in the production process and monitors their effectiveness. This ensures coffee that is safe, controlled and compliant with European food hygiene standards.

Total traceability
Every batch of La Genovese coffee is fully traceable —from green beans to final delivery. Through an internal coding system, we can reconstruct the entire journey, offering transparency and trust to distributors and customers.

Quality is
it is a habi

not an act,

Discover la Genovese coffees in every form and blends and let yourself be surprised by taste after taste

An excellent tasting experience

We have been refining the art of coffee processing since 1936. Our selection of current products is the result of a continuous process of research and training, which we renew day by day in order to achieve ever higher quality and satisfy the needs of our customers.
Each line is conceived to satisfy a precise moment of the day; our coffees become faithful companions in the daily routine at home, in the espresso ritual at the bar, in the moments of break at work. Each La Genovese coffee is expertly roasted to give a balanced and recognisable taste in every cup.

CAFFÈ

Blends for professional

Our coffee bean blends are distinguished by the care and attention we pay to the selection of the bean and then move on to more varied roasts in order to bring out the best in each blend.
In the cup, they all stand out for their richness of flavour and intensity of aroma, without sacrificing balanced flavour profiles.

Anniversario

legendary blend

A tribute to tradition and excellence, Anniversario is a blend crafted for those who appreciate timeless balance and refined complexity. The Brazilian foundation provides a smooth and nutty backbone, enriched by Colombia Supremo and Honduras SHG, which add delicate red fruit and honeyed sweetness. Ethiopia Sidamo Washed elevates the experience with floral and citrusy brightness, creating a well-structured, elegant cup with remarkable depth.

Single origins

A line designed for those who enjoy making coffee at home. Single–origin coffees of the highest quality, of which we carefully follow the entire production chain to achieve a surprising in-cup result. Each taste allows us to travel through their countries of origin. Each coffee has a dedicated roasting curve to enhance its aromatic and distinctive notes. Available in both beans and ground, they are selected from the best Arabica from around the world.
